Siegwerk Announced as IMI Conference Sponsor & Speaker

[Inkjet Age of Materials Conference 2018](#)

Carrabassett Valley, Maine – IMI President Al Keene says, “We are pleased to announce Siegwerk as a Sponsor and speaker for the [IMI Inkjet Age of Materials Conference 2018](#) on September 5-6, 2018 at the Embassy Suites Chicago – Lombard/Oak Brook in Lombard Illinois, USA.

As inkjet industry leaders gather in Chicago to hear the latest developments and assess the role of materials and inks in the Future of Inkjet, Siegwerk’s Sales & Technology Manager Inkjet – North America, Tom Molamphy, will address the conference with his presentation, “**UV low migration capable inkjet inks for packaging – where do they fit?**” covering:

- UV ink application areas in packaging
- Focus on “low migration” UV capable inks
- Comparison of UV & water based inkjet ink applications for packaging
- “Low migration” issue: Specifics of what this means for inkjet when used as part of “low migration” capable system for packaging

IMI’s [Inkjet Age of Materials Conference 2018](#) addresses the challenges, options, and opportunities associated with future inkjet materials requirements, technology choices, drivers & barriers, and other issues required to effectively implement inkjet ink and fluids technologies for applications expansion and diversification. This strategic conference for the inkjet industry provides high value information on innovations, trends, and issues for senior executives, commercial managers, development teams, end users, and others looking to expand their

knowledge and understanding of materials developments, products, and technologies shaping the future of inkjet as well as exchanging ideas with industry experts and peers.

Siegwerk is a leading international supplier of printing inks for packaging applications and labels. They combine their formulation knowledge and application expertise with digital printing process requirements to deliver customized inkjet ink solutions. Siegwerk has recently strengthened its position in the industrial inkjet space with the acquisition of the UV curable inkjet portfolio for packaging applications from Agfa Graphics.

About IMI

IMI sponsors conferences and courses world-wide to assist in understanding technology developments, markets and applications requirements. IMI conferences and courses offer unique opportunities for leading hardware, technology development, consumables, software and user companies to learn, network, and develop a comprehensive understanding of current as well as future developments impacting successful product implementations, market entry/expansion, and technology utilization. Since 1990, IMI has held over 600 programs attended by well over 25,000 technical, marketing and management personnel from companies around the world.

IMI programs are designed to enable attendees to obtain the latest technical, market and application information while allowing time to network with other attendees in a time and cost efficient manner. Attendance at an IMI program enables attendees to meet with an industry's leading experts in a single location over a short period of time thus maximizing information transfer efficiency and minimizing travel and time expenses.
